General Information

Parking: Utilize the main parking lot on the N.E. side of the building.

Entrance: Enter the church through the North parking lot doors. GC's do require a key for this facility to gain entry. The GC will need to ensure the door is locked in the evening at the end of the shift.

Coaches will need to enter an alarm code at the beginning and end of the night. The alarm code is 2772. Coaches will simply need to enter the code, there are no other buttons to press other than the code itself.

Gym Location: As you enter the facility, the gym is located at the South end of the building. Proceed down the hallway and past the main foyer and the gym will be straight ahead.

Change room/Washroom: Washrooms are located in the main foyer of the church.

Equipment

Foam Dodgeballs will be stored in the gym storage room that is located along the North wall of the gym.

Important Notes

Please ensure that participants do not warm-up in the hallway.

The gym floor is brand new. Please ensure that participants and parents are wearing non-marking shoes, and that the gym is kept in good shape!

We have had numerous complaints regarding marks on the floor. If there are a lot of marks, you can grab a magic eraser out of the janitor's closet. Just outside the main doors to the gym.
