

SOCCER SET UP

NOTES

The SSC lines the majority of our fields, but in an instance where a field is not lined, please use the following information as guidance on Soccer set-up.

Set- up: The first team to arrive will set up the field as shown, but will require the cones of the other team as well.

Goal Crease: The width of the goal crease is 4 yards (or paces) to the right and left of each goal post. The length is then 8 yards (or paces) in front of the goal posts.

Field: The width of each field should be marked at 40 yards (or paces).

Penalty Shot: Mark the penalty shot area 12 yards (or paces) in front of the goal posts.

Review diagram for complete positioning of each cone: Team 1 cones are marked T1 and Team 2 cones are marked T2.

Use any remaining cones to mark large obstructions.
